

3rd Theoretical Session
ADVANCED COLOR DOPPLER APPLICATIONS IN NEPHROLOGY

29th March 2017

LITHIASIS AND OBSTRUCTIVE NEPHROPATHY

09.00/10.00

Renal and excretory system lithiasis

F. Logias (Nuoro)

10.00/11.00

Hydronephrosis

G. Melfa (Como)

11.00/11.15

Coffee break

RETROPERITONEAL VESSELS

11.15/12.15

Normal aorta and aortic pathologies

F. Milanesi (Voghera)

12.15/13.15

Inferior vena cava, portal and renal veins

M. Meola (Pisa)

13.15/14.15

Light lunch

COLOR DOPPLER IMAGING IN HYPERTENSIVE AND VASCULAR KIDNEY DISEASES

14.15/15.15

Renal artery color-Doppler: methods, scans and tricks

F. Calliada (Pavia)

15.15/16.15

Role of ultrasound in blood hypertension

M. Meola (Pisa)

16.15/16.30

Coffee break

16.30/17.30

Role of ultrasound in blood hypertension

I. Petrucci (Pisa)

17.30/18.30

Validity and significance of resistance indexes in renal microcirculation assessment

V. Napoli (Pisa)

18.30/19.30

Live lesson

Renal artery and renal resistance indexes

M. Meola (Pisa)

30th March 2017

KIDNEY AND KIDNEY-PANCREAS TRANSPLANT

09.00/10.00

Clinical and ultrasound evaluation of recipients and donors

G. Melfa (Como)

10.00/11.00

Clinical and ultrasound evaluation of transplanted kidney

M. Dugo (Treviso)

11.00/11.15

Coffee break

11.15/12.15

Kidney-pancreas transplant

M. Meola (Pisa)

12.15/13.15

Live lesson

Ultrasound and color Doppler evaluation of kidney and kidney-pancreas transplant

M. Meola (Pisa)

13.15/14.15

Light lunch

INTERVENTIONAL ULTRASOUND AND MEDICAL LIABILITY

14.15/15.15

The liability of the medical practice

I. Ottolini (Lucca)

15.15/16.15

Coroner suggestions

M. Di Paolo (Pisa)

16.15/16.30

Coffee break

16.30/18.30

Clinical cases: the best 4 clinical cases of post-graduate students of the past editions

18.30/19.00

Final test
